"Satan's presence in the images of what God has created!'

Concerning the presence of the Spirit of Satan in the images of what the Lord has created in heaven and on earth, idols and otherwise, we can say that even if he were not present in these objects, it is as if He was, for the very fact that we men suffer His evil action because of our disobedience to the will of God, who has already inflicted His curse upon us for the transgression of His commandments.
We suffer this curse not only as God's punishment, but also as an evil action of the devil on Divine order or with God's permission, having agreed to serve Satan and not our God, by making these images contrary to his will.
The quote from the Holy Scripture that makes us understand this is as follows:

(Behold, I set before you today a blessing and a curse: the blessing, if you listen to the commandments of Yahweh your God, which I command you today; and the curse, if you do not listen to the commandments of Yahweh your God, but turn away out of the way which I command you today, to go after other gods which you have not known.) Deuteronomy 11 : 26

Satan's presence in these objects is unfortunately real because having been made by his will they are his, and through his servants, he can use them as he pleases, either to deceive men or to offend the glorious Spirit of God who created great works.
Six personal testimonies of Satan's presence in objects are listed at the end of the document.
In the vast majority of cases, the devil does not manifest his presence in an image so as not to bear witness to himself, because this could lead us to believe in spiritual things that have to do with the Holy Gospel of the Lord Jesus and the entire Holy Bible and therefore, by deciding that we want to do God's will in order to attain the eternal salvation of the soul promised by Him.
The devil, even if he has received God's permission to rage against us for our disobedience, may also decide not to act evilly towards us, for it is enough for him to know we face eternal damnation because we chose to serve him, having denied the sovereignty of our Creator God, who demands from us that he be recognised as worthy of our servitude.
A demonstration of the real presence of the devil in an image can be derived from the following prophecy about the animation of the image of the beast from Revelation, believing firmly in what we read:

(I saw another beast coming up out of the earth. He had two horns like a lamb and it spoke like a dragon. He exercises all the authority of the first beast in his presence. He makes the earth and those who dwell in it to worship the first beast, whose fatal wound was healed. He performs great signs, even making fire come down out of the sky to the earth in the sight of people. He deceives my own people who dwell on the earth because of the signs he was granted to do in front of the beast, saying to those who dwell on the earth that they should make an image to the beast who had the sword wound and lived. It was given to him to give breath to the image of the beast, that the image of the beast should both speak, and cause as many as wouldn't worship the image of the beast to be killed.) Revelation 13 : 11

This prophecy of Revelation about the time of the end of the world is a clear sign that confirms the presence of Satan in the so-called 'statue of the beast', a material image of something created by God.
The animation of this statue takes place through manipulation by the devil with one of his wonders, so as to make it also speak, but in truth it is he who speaks directly from the statue, to deceive us, just as he spoke through the serpent when he deceived Adam and Eve.
An example of Satan's manipulation of an object is the transformation of sticks into snakes at the time of Moses, animating them to make them look like real snakes.
A second example of Satan's manipulation of an object is among the personal testimonies on the existence of the devil, in point no. 2 of 'Existence of Hell and the Devil!.pdf'.
A third example of Satan's manipulation of something material is that of the possibility he has in procuring any sickness in our material body, manipulating it on God's permission as if it were an object; in fact, our body with the exclusion of the soul, can be considered an object.
Satan manifests his presence in the statue of the beast by God's permission, precisely because God wants to make the devil's presence in the image credible and evident, so as to recognise and separate the true worshippers of God from the false ones, since He is pure Spirit.
This statue is in fact an idol in its own right, an object of worship for all those who allow themselves to be deceived by the devil and his powerful wonders.
The obvious manifestation of the devil in this idol confirms his presence in all idols made in the past, even in cases where we have not found an obvious satanic manifestation in them.

The presence of the evil spirit in these images that we create, contrary to God’s will, can also be justified by the fact that when we do something, with the utmost commitment, we say: ‘I put my heart and soul into everything I do!’.
Therefore, if we put our whole heart into something, we are putting our spirit into it; but as this spirit is disobedient to God’s will, it is certainly devoid of the presence of God’s Holy Spirit.
Right now, we can say that Satan is already manifesting his presence in the images we have created of what God has made, such as statues depicting the Lord Jesus or the Virgin Mary, his mother.
He does so by manipulating them, for example, by causing a part of the statue to move, or making it shed tears, etc., while ruling out the possibility that this is merely the deceptive work of men, intended for entertainment.
You can see these events in some videos uploaded to the internet by searching phrases such as ‘Statue of Jesus moving’, ‘Statue of the Virgin Mary weeping’, or similar.
With regard to these potential satanic manifestations, which may already confirm the prophecy concerning the ‘statue of the beast’, it is worth reading the document ‘Deceptive miracles, signs and wonders of Satan!’
The following are six personal testimonies of Satan's presence in the images of what God has created in heaven and on earth, which begins to manifest itself in an obvious way the moment we act by faith in some way, thwarting his evil will, and trying to remove his presence from our lives.
These testimonies and others can also be found in the document "Existence of Hell and the Devil!.pdf".

Story No. 4 on the:
"Existence of Hell and the Devil!.pdf"

Strong impact of a picture inside a piece of furniture at home:

(In 2005, in the same room as the first three manifestations and in the presence of my mother, I heard a loud bang coming from the furniture, like an object slamming against it due to the sudden movement of an evil Spirit, as also happened in other circumstances from the stories in 13,17,19, and 20. The object was definitely a picture of the members of the Holy Family measuring about 30x40 cm, which no living man knows, so it was a fake picture that I had removed from the wall in order to adore it by kissing it, as many do at the devil’s deceptive suggestion, but I quickly changed my mind and removed the picture from me. My mother had taken it and hidden it inside the cabinet; thus, when I asked her where she had put it with the intention of throwing it away or destroying it, it was in the cabinet that the loud bang was heard. In fact, after that day, the picture was no longer seen in the house because my mother herself must have had it thrown away, since she too had heard the strange knocking and guessed what it was that had frightened her).

The presence of Satan in this small picture with the false image of the Holy Family is justified not only by the strong knocking sound heard, but also by the fact that the small picture was hung on the wall as an object of worship or adoration; one could even kiss it if one wished, thus making it a real idol.
In fact, we could have decided to make a nice enlargement and to decorate it with fine materials as we sometimes do, making it an object of worship and adoration for the people, i.e. an idol.
In doing so, we ourselves prove Satan's presence in the picture, as it is proven by faith in the prophecy of Revelation quoted earlier, justifying Satan's violent movement from the picture.

Story No. 7 on the:
"Existence of Hell and the Devil!.pdf"

Dark smoke inside the house during the purification of a room:

(Years after 2005, while I was inside the house, I decided to remove some images considered impure from a room, including a small statue of Padre Pio of Pietrelcina, with the intention of destroying them in observance of God's second commandment. After placing some pictures including the statuette inside a box, a cloud of black smoke immediately emerged from it; it was very noticeable because of the white light that was on in that room. Along with the smoke I smelled a very noticeable and unpleasant odour that Padre Pio called 'stench'; in fact, I tried to disperse it with my hands. The odour confirmed Satan's presence even though he may be present without emitting odour or smoke, otherwise, they would have written this in the Gospel accounts because Jesus Himself would have pointed it out).

The presence of Satan in the images placed inside the box is justified by the evident manifestation of the devil with black smoke and a strong, unpleasant odour.
This smoke represented Satan's torment for what were my intentions, on this smoke you can read a reference to the prophetic book of Revelation in point no. 6, ‘Concerning the Devil’ of the document ‘Existence of Hell and the Devil!.pdf’.

Story No. 17 on the:
"Existence of Hell and the Devil!.pdf"

Swaying bottle during the purification of a cabinet at home:

(In 2025, while purifying a room in the house, I was removing from a strip of plywood from a piece of furniture with a glued display case full of star images to destroy them in observance of God's second commandment. When I started to pull lightly with my finger on the first star to remove the entire piece of plywood, I immediately saw an empty bottle inside the cabinet sway noticeably. Having made several tests to see if I could cause the bottle to wobble to no avail, we can say that Satan was present in the star-filled cabinet and that he immediately escaped through the bottle).

Satan’s presence in the display case full of star images is justified for the reasons specified at the beginning of the document.
Concerning these images that we mistakenly make, the Lord has commanded us to destroy them, together with the idols we worship by making them objects of adoration and servitude.
With reference to this, also see the document ‘Destruction of idols and graven images, in hatred of the Lord!’.

(4)
Story No. 19 on the:
"Existence of Hell and the Devil!.pdf"

Crackling from some bricks with the image of the moon:

(On 20/04/2025 while dismantling the floor of a room due to the embossed image of the moon being present on the bottom of the bricks, almost halfway down, when I began to remove the last strip of bricks that were not whole, close to the wall, in the total silence, I immediately heard the movement of a brick in the pile placed on the windowsill, almost as if a Spirit were trying to escape from them. I felt the movement of the brick immediately after I placed my screwdriver on the first brick to be pulled, which I used as a measure to see if the image of the moon fit into the piece of brick).

The presence of Satan in the bricks with the image of the moon is always justified for the same reasons specified at the beginning of the document.
In this case, the bricks can be considered real graven images, even if not placed vertically like the ancient ones we know from the Holy Bible, and which the Lord has always hated.
For this too, it is necessary to read the document ‘Destruction of idols and graven images in hatred of the Lord!’

Story No. 20 on the:
"Existence of Hell and the Devil!.pdf"

Rustling sound from a bag with unpurified bottles:

(On 28/05/2025 while I am with my tablet in my hand in the morning doing some editing on documents concerning the purification of the Church, I hear a rattling or movement inside a rubbish bag with glass bottles, old meat tins etc. that were less than a metre away from me. I had not put anything in the bag since I was in the kitchen and at that moment I was standing still. Among the images contained in the bottles was also a small figure of a human being, and this is enough to justify Satan's movement among the objects as a matter of irritability, seeing me always applied to counter his demonic action against men).

In this case too, the presence of Satan in the rubbish bag is justified for the reasons stated at the beginning of the document.

This manifestation of the devil's Spirit among the rubbish makes us realise that he is present in objects with various images until they are destroyed, making it impossible to reuse them, continuing to serve those images that the Lord hates.

Story No. 21 on the:
"Existence of Hell and the Devil!.pdf"

Speaker interference for about two minutes, which had never happened before:

(On the afternoon of 20/08/2025, I decided to purify a room that had not yet been done, dividing the plastic, glass and other materials, mostly containing images of what the Lord has created in heaven and on earth, piling it on the floor. The next day while listening to music with the loudspeaker on, I filled the car boot with that material to make a delivery to the dump. At a certain point the loudspeaker that was playing less than three metres from the car started to pick up interference that lasted for about two minutes, something that has never happened before. This showed the presence of the Spirit of Satan in the material put into the car because of the images in the various objects).

In these circumstances too, Satan's presence was manifested not directly in the objects containing images, but in their vicinity, and this shows the possibility he has of manifesting himself or acting even in the vicinity of these impure objects, as happened in so many of his other manifestations in the stories listed in ‘Existence of Hell and the Devil!.pdf’.
This interference caused in the speaker by Satan is one of his many powers to act directly in objects, as he has shown us in several manifestations of the stories listed again in ‘Existence of Hell and the Devil!.pdf’, interfering in other objects in a similar manner.
Referring to the Holy Gospel, we know by faith that Satan can act in a man's body to possess and torment him at will, as has happened in the past and also today.
This can be considered real interference in a man's body caused by the devil, who acts in him by disturbing and tormenting him in various ways as only he knows how to do.
The fact that Satan can act in the vicinity of the place where he is is demonstrated, for example, by the Gospel account of the devil's action against a herd of swine, which was in the same place where a man possessed by the devil was delivered by the Lord Jesus.
The story can be found with others under No. 4 ‘Concerning the Devil’ in the document ‘Existence of Hell and the Devil!.pdf’.
For the devil, being present in an image is like being present in the body of a man; indeed, possessing an image comes very easily to him because, being an object, it has no possibility of understanding and will.

The Messenger of God
